D. R. Green & Co., 2277 Jefferson avenue, owner and contractor, to build two one-story frame dwellings on north side of Ross avenue, between Hunter and Globe. Cost, \$6,600 each. Shingle roofing on one and tin on the other.

WHAT IS "GOOD GOVERNMENT?"

Indianapolis.—The official paper of the Bricklayers' International union says: "If good government were possible through the medium of law, the United States, individually and collectively, would have reached the millennium, for the reason that we have been passing laws to fit every kind and sort of condition. Good government does not come that way. Every reform in history has come up from the people, not down through law-making power to the people. The future of this country rests with the great common people—the everyday man who never gets into the newspapers but who does his day's work and raises his family and lives his life. He is the man who is the court of last resort. His ideals are growing higher every year. And as he raises his standard so the standards of the state are raised, for he is the state."

REJECT LABOR PARTY PLAN.

Boston.—At the meeting of the executive board of the Massachusetts branch, A. F. of L., it was stated that the returns of the referendum vote shows that organized labor in this state is opposed to the formation of a labor party. The question has been urged for several years and at the last convention it was referred to the executive board, who submitted it to a referendum vote.

PLAY OLD DIVIDING GAME.

Jerome, Ariz.—The city council has ordered that public speeches on the highways of this municipality shall cease forthwith. This action was taken because of a petition from a committee of Mexican residents who aver that agitation on "any subject" would tend to cause misunderstanding between Mexicans and Americans.

Trade unionists laugh at this statement. They say the United Verde Copper company is behind the move, and is only interested in checking any agitation that will bring American and Mexican workers together.

TEXTILE WORKERS WIN.

Milwaukee, Wis.—Thirteen hundred girl textile workers have won their strike. Hours are reduced from 10 to 9 per day and wages are increased. All other differences will be adjusted by an arbitration board.

STRIKE FAVORED BY 90 PER CENT OF RAILROAD MEN

Unions Declare No Half-Way Measures Will Satisfy—Lines Allowed Time To Discuss Situation.

New York.—More than 90 per cent of the 400,000 employees of 225 railroads of this country voted to strike unless they are granted an eight-hour day and time and a half for overtime.

This announcement was made Tuesday at a conference between representatives of the "big four" brotherhoods and the National Conference Committee of the railroads.

The meeting broke up without the roads showing their hand to reconvene Wednesday morning. The adjournment was taken to allow members of the railroad committee to discuss the situation after the union representatives had declared no half-way measures would satisfy them and their followers.

The organizations which voted on the strike question are: The Brotherhood of Locomotive Engineers, the Brotherhood of Railway Trainmen, the Order of Railway Conductors and the Order of Firemen and Enginemen.

The result of the referendum as announced by the Secretaries follows:

Brotherhood of Locomotive Engineers (Southeastern territory) for a strike 9,872, or 98 per cent; Western territory 9,035, or 90 per cent; Eastern territory 9,459, or 94.6 per cent.

Order of Firemen and Enginemen—Total vote 70,653, or 98.3 per cent in favor of strike.

Brotherhood of Railway Trainmen—For a strike 124,832, against a strike 7,276.

Order of Railway Conductors—For a strike 87.5 per cent of total. Total vote 34,846.

One railroad was not included in the vote of the order of conductors, but it was said to be a small and unimportant one.

The announcements were made by the following heads of the organizations: Warren S. Stone, for the Brotherhood of Locomotive Engineers; W. G. Lee, for the Brotherhood of Railway Trainmen; A. B. Garretson, for the Order of Railway Conductors; and W. S. Carter, for the Order of Firemen and Enginemen.

Before the result was made known the question of whether negro firemen were to be given recognition by the railroad was brought up. Elisha Lee, chairman of the managers said that the meeting was not authorized to consider that question. W. G. Lee of the Brotherhood of Railway Trainmen responded that any agreement that might be concluded must refer to all employees.

Mr. Garretson and Elisha G. Lee, following the reading of the vote, said the managers now must consider the sentiment of the rank and file and said they hoped the railroads would allow some concessions. Mr. Garretson made a plea for "modification" on the part of the employers.

"In regard to this, it is a matter of hope rather than of assurance," Mr. Lee replied.

W. G. Lee made a conditional offer to turn over the vote by railroads. About 225 railroads are included in the vote.

OVERTIME IS HARMFUL.

Manchester, England.—The Cotton Factory Times makes this comment on the annual report of the chief inspector of factories and workshops:

"Special attention has, of course, been devoted to the effect on health of the extended hours of labor which emergency orders have rendered permissible. As the year advanced the tendency grew to substitute shifts for the long day followed by overtime, which was found to be uneconomical as well as detrimental to health. For the same reason Sunday labor has become less prevalent. It would appear, however, that no great success has yet followed the endeavors of the inspectors to persuade managers to substitute eight-hour shifts for spells of 11, 12 or 13 hours. The wasteful expedient of overtime and night work, for young girls especially, needs no further demonstration. Whilst as regards adult women it may be 'the good cause that gives good heart for work,' as one of them is quoted as saying, nature is never cheated.

"Overtime in cotton mills is a rarity, because, as it is well known, cotton workers have resolutely set their faces against it; but where, to meet a special emergency overtime is permitted to continue uninterruptedly, the periodical examination of the operatives is compulsory, and power is given the examining surgeon to suspend, either wholly or for a period, anyone showing undue signs of fatigue. It is satisfactory to know that the question of the health of the toilers is the subject of so much solicitude. Out of the evil of the war at least some good has come."

CIGAR MAKERS STRIKE.

New York.—About 2,000 workers employed in three factories of the United Cigar Manufacturing company are on strike for higher wages. The present rates range from \$10 to \$14 a week. Eighty per cent of the strikers are women and girls, who are being aided by officers of the Cigar Makers' union.
